

The Proven Way to Help Your Kids Build Reading Comprehension

An independent study shows that **VocabularySpellingCity**, a game-based, online word study program, significantly improves learners' reading comprehension and vocabulary retention.

The Research Proved:

43.0% increase in vocabulary retention scores

21.5% increase in reading comprehension for native English speakers

46.5% increase in reading comprehension for intermediate English speakers (English Language Learners)

Students who spent 10 minutes a day using VocabularySpellingCity's 35+ activities and customizable word lists made significant learning gains in a short time. **The students scored much higher on vocabulary tests than students using only traditional study methods.**

Teachers reported that:

- ✓ **"The vocabulary is really helping them understand** more of what they're reading and they love it."
- ✓ **"My students are using better vocabulary now**, and they are looking at words in a new way... They are definitely understanding more because of VocabularySpellingCity."
- ✓ **"Students are motivated and enthusiastic** to catch up and finish the activities... they feel successful on VocabularySpellingCity because it's not pass or fail."
- ✓ **"The way the vocabulary is presented** makes the difference."
