

The Proven Way to Help Your Students Build Reading Comprehension

Key Findings

An independent efficacy study examined word study and instruction using **VocabularySpellingCity**, a game-based, online literacy program designed to enhance any English Language Arts curriculum.

The Research Proved:

43.0% in vocabulary increase retention scores

21.5% in reading comprehension for native English speakers

46.5% in reading comprehension for intermediate English speakers (ELL students)

Teachers struggling to find the time to integrate vocabulary strategies into their lessons and word lists find **VocabularySpellingCity** is the solution: user-friendly, engaging, and effective at differentiating word study for groups and individual students.

VocabularySpellingCity's 35+ activities and customizable word lists provide key factors for vocabulary retention:

- ✓ **Multiple Exposures to Words**
12-15 encounters
- ✓ **Multiple Modalities**
Students read, hear, speak, write, break down, and play with words
- ✓ **Reinforced Spaced Practice**
Break the one week learning cycle
- ✓ **Strategic Word Selection**
Academic and key curricular content integrated with class studies and existing curriculum
- ✓ **Saved data**
Automatic tracking and measurement of student learning
